INTENDED USE & DESINFECTION INSTRUCTIONS

INTENDED USE

Ocean Savers (ear savers) are made from maritime rPP and intended to improve the comfort and adaption of the face masks to the users head.

DESINFECTION PROCEDURES

Ocean Savers can be disinfected with alcoholic solution, disinfection solutions or submersed in bleach (1/10 aqueous solution).

END OF LIFE PROCEDURE

When the product has come to the end of his life, help us give them a new one. You can do this by placing the Ocean Savers in the appropriate recycling program/scheme (PP) or by sending it to us and receiving a discount on the replacement product.
